NAME OF COMMITTEE (In Full)

Alexandria Ocasio-Cortez 2018

FEC IDENTIFICATION NUMBER

C00639591

Mailing Address 1510 Castle Hill Ave.
#311

City	State	ZIP Code
Bronx	NY	10462

This is in response to the request for additional information filed by the FEC in reference to our pre-primary FEC filing. You expressed concerns about the large amount of unitemized contributions listed in our report and you reminded us about the obligation to report contributions from individuals that in aggregate are more than \$200. We are well aware of our filing obligations. The software we use to collect data and file reports in NGP Van. It is working properly and aggregates individual contributions as required when generating our required reports.

Our campaign now has more than 70,000 individual contributions from more than 30,000 individual donors. We have tens of thousands of contributions of less than a dollar and thousands of contributions of less than ten dollars. The bulk of our contributions are received through ACT BLUE. Since the primary we have also received a substantial number of contributions through the Democracy Engine. In March the average contribution over the life of the campaign was \$11.08. Since then the average has gone up and down as the mix of contributions has changed but at last count it was under \$20. If you inspect the itemized contributions listed in the filing you will find examples of donors who are included as a result of aggregating their contributions.

Additional concerns were expressed about errors in the cash on hand totals. We believe that these errors were the result of the listing of an in-kind contribution and the deletion of a duplicate disbursement in the first quarter report. We have filed an amended report for that quarter which we believe will resolve the specific items referenced in the request for more information. We are also filing amended reports for the subsequent reporting periods.

We take our reporting requirement very seriously and hope that these matters are now resolved.
